In Physician Heal Thyself: Principles For Christian Professionals, Jim Harnage utilizes his over 30 years of ministry in sales experiences to encourage the Christian professional on how to cope with burnout, the professionals code of conduct, tools for success and weapons to overcome the tangible and intangible forces that can derail and prematurely shut down the hardest working individual. From topics like From Tents to Tree Houses, Handling Domestic Violence, and Get Naked, this book candidly deals with how to cope with success and opposition all from an unapologetic Biblical, and occasionally dry, humorous perspective and is a must read.
