Excerpt from Physiological Therapeutics: A New Theory Referring to Spontaneous movements of Cilia, Of the heart and uterus, he says -

When every source Of excitement is excluded, we cannot but perceive that these actions take place with a spontaneity which can scarcely be accounted for in any other way than by considering them as expressions of the vital activity of the component cells of these forms of muscular tissue. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy.
