Excerpt from The Physio-Medical Journal and Reform Advocate, 1875, Vol. 1

It has been estimated that four thousand cases of pneumonia annually occur in Indiana, and that fifteen hundred of these die. But if, to avoid the appearance of extravagance, we reduce this estimate and allow that one thousand persons annually die of this form of disease in Indiana, the number is still sufficiently large to demand the earnest attention of both physicians and people.

About the Publisher
Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com

This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works.
